ELKAY® EZ RETROFIT FRAMES

Install a Bottle Filler Without Opening the Wall!

Installing a new bottle filling station doesn't have to mean opening walls, coordinating multiple trades, or dealing with lengthy downtime.

Introducing the new **Elkay® EZ Retrofit Frame**, designed to simplify and accelerate retrofit installations of Elkay Pro Filtration™ bottle filling stations. It is also compatible with most Elkay on-wall bottle filling stations. By eliminating the need for wall modifications, the EZ Retrofit Frame helps reduce installation time, lower labor costs, and minimize disruption—all while delivering a clean, built-in appearance.

SINGLE EZ RETROFIT FRAME

#62403
FRAME ONLY
Stainless Steel

SINGLE EZ RETROFIT FRAME

#62404
FRAME ONLY
Midnight Black

Why Choose the EZ Retrofit Frame?

- **Eliminate Wall Demolition – Install over existing rough-ins without costly wall modifications.**
- **Complete Retrofit in 3 Hours or Less – Compared to traditional retrofits that can take 12+ hours.**
- **Reduce Labor & Downtime – One trip, one trade, and less disruption to your facility.**
- **ADA-Ready Design – Helps support accessible bottle filling station installations.**
- **Factory-Located Mounting Points – No on-site measuring required.**
- **Engineered for Strength – Supports up to 300 lbs. and mounts securely to CMU and stud walls.**
- **Cleaner Finished Appearance – Covers existing rough-ins for a seamless, flush installation.**
- **Reduced Asbestos Risk – Avoid wall demolition in older buildings.**
