

THE DRIP-PROOF CLOSET AUGER BAG

#36177

(Auger Not Included)

A sanitary solution to walking around with a dripping auger! This durable bag features a wide mouth end with a heavy duty zipper so the closet auger easily slides in. After use, just toss your auger into the bag, zip it up, and go! No mess, no hassle. Three vent holes allow the auger to dry between jobs, and a thick shoulder strap keeps your hands free to carry the rest of your tools to the job.
